

Still Young

Outasight

Red cups all across the apartment
Music too loud, police came knocking
And growin' up was never an option
We weren't done, we had only begun and
Talk's cheap, New York is expensive
Some wild nights, yeah we're going down legends
But time flies, that's what they don't mention
But we're havin' fun, while I'm still young

Woah Woah
While I'm still young
Woah Woah
While I'm still young
Woah Woah
While I'm still young
Age ain't nothin' but number
I'm going til the sun up
I'm still young

Two kids runnin' 'round the apartment
A mortgage and no days off when
Growin' up was the only option
We weren't done, we had only begun and
Talk's cheap, LA is expensive
Some long nights but I wouldn't change a second
And time flies, that's what everybody mentions
But we're having fun, while I'm still young

Woah Woah
While I'm still young
Woah Woah

While I'm still young
Woah Woah
While I'm still young
Age ain't nothin' but number
I'm going til the sun up
I'm still young

Days are long (days are long)
And years are short ok? (Okay)
Time moves on (Time moves on)
That's one thing you can't change
Days are long (Days are long)
And I'm okay, ok?
Age ain't nothin' but number
I'm going til the sun up
While I'm still young

Woah Woah
While I'm still young
Woah Woah
While I'm still young
Age ain't nothin' but number
I'm going til the sun up
I'm still young

Time now, somewhere in Arizona
Pictures of the kids and diplomas
And I still don't feel like I've grown up
Maybe I'm dumb, but I'm never done no
Talk's cheap, glad I got a pension
Magaritas by the pool what a blessing
Time flies, that's the one thing that I'll mention
But I'm havin' fun
I'm still young
