Whatever It Takes

Outerspace

Intro :
Yeah, Blood and Ashes, uh-hu... lets go!

Verse 1. Crypt the Warchild:

Now i done came a long way since the lunch room tables,
cypherin' in hallways, being young willing and able.
Outerspace always.
Was ready to do it, hard to earn, Illmatic played a heavy influence.
Scars I burned still at it I was steady pursuing,
a way to get a piece of this pie right through this music.
The game kept increasing my high lets keep it moving,
'till my name get released is the sky from show improving.
For those that shited on me, theres no discussion,
I'm goin' six months a year, in and out of clubbing.
The other six months I'm seekin' out production.
Constantly makin' moves havin' time for nothing.
Constantly breaking rules when its time for crushing.
Dropping these vicious rhymes on the dime is lovely.
'Till my squad open wide on the side they love me.
Do this for y'all Planetary but the rest disgust me.
You have no clue what I do to the rest they judge me,
give you a few through-and-through, y'all cant bend or budge me.
Since the birth of my son I place no one above him.
Till the day that I die I will end you function.

Chorus : Whatever its gone' take to make it,
when I see my chance I'm'a take it.
'Coz I have came way to far, to let you stop me now.
I work hard.
Its more than a matter of pride.
Im using my pen to provide
'Coz I have came way to far, to let you stop me now.
I work hard.

Verse2. Planetary:
First place I'm'a take you, the days evolve.
All i bang is Kool G rap and DJ Polo.
We was men at work, should i say young'ins jus' try to get it?
It was always me and Crypt, till this day we never separate.
In high school battling, they took me lightly,
my skins a little lighter, at the end they didnt like me.
I cooked them and i took them to a place, they aint never been.
Hate to see me win, 'coz it happened over and over again.
Created Q-D with El Dorado, 'till this day it's still the motto.
We gone' leave you niggas hope y'all follow.
My love for Outerspace is deeper than the casket, plus.
I had two sons and i named them cannons after us.
Crypt, you just planted a seed in yo' garden.
Take care of little Nikki like our mothers when we starvin'.
The belly of the beast, a feast is un-reachable.
Gotta get this cheddar now the young'ins they believe in you,
Vinnie set the path. now when i hear ''Walk With Me'',
I hear the hook, that's where Paz was talkin' to me.
We gone' do it 'till the 40's start pouring,
'Till our stones get carved and the Blood and Ashes start forming.

Chorus x3: Chorus :
Whatever its gone' take to make it,
when I see my chance I'm'a take it.
'Coz I have came way to far, to let you stop me now.
I work hard.
Its more than a matter of pride.
Im using my pen to provide
'Coz I have came way to far, to let you stop me now.
I work hard.
