Never Too Far

Outlanders

```
We're never too far
We're never too far
We're never too far
We're never too far

We're islands, but never too far
We're islands, but never too far
We're islands, but never too far

We're islands
We're islands

We're islands, but never too far
We're islands, but never too far

We're islands (but never too far)
We're islands (but never too far)
```
