

## Live Your Truth

Outlandish

Si Amor ofreces  
Amor mereces  
No falta nada  
Cuando yo estoy contigo

My mama told me little girl when you grow up  
You will have everything  
My daddy said nothing comes for free  
And the world is filled with cruelty

Mama taught me many lessons  
Like beta count your blessings  
Life it can be viscous  
And it will tests us down to our core and intestines  
But It is precious too  
Essence of it is it leaves you breathless  
If you drink to much water you drown  
Guess she was trying to tell me to slow down

Si Amor ofreces  
Amor mereces  
No falta nada  
Cuando yo estoy contigo

My mama told me little girl when you grow up  
You will have everything  
My daddy said nothing comes for free  
And the world is filled with cruelty  
My sister warned me never fall in love  
Once you do you will never get enough  
My brother taught me everything I know  
It doesn't matter what you own

Can't take all the money with you when you die  
Salvation isn't up for sale  
You can still be happy if you're living on a dime  
Love is not for retail

Remember to love what matters and it will come to you  
Love what matters go and live your truth
