

## Out Of Sight

Outlandish

She was doing dishes  
When momma noticed the cuts  
Almost called her bluff  
Told her to scratch it off  
Surprised, but momma didn't make much notice about it  
And now she went to sleep and left her alone

And she said like  
(Oh oh )  
She knows like  
(Oh oh)  
She feel like  
(She don't want nobody to know)  
She love like  
(Oh)  
So strong like  
(Keep it low)

Her friends noticed something strange  
Trippin as well  
Why can't she find the right words to tell  
The marks on her arm was something she done secretly  
Crying her heart out feeling so torn

Yeah, say what you want but  
You all alone and all the time it's hard to see love  
Probably some teen stuff  
I know you want mine  
Because I ain't got the time  
We scratch the surface some other time, aight?  
Speaking of which I heard a rumor going around about ya  
Oh I'm sorry if it sounds feels like I'm bothering ya  
Why keep it all inside? It's like dying alive  
Quiet water runs deep, it shows in your eyes

Hey, trying to cope with pain misunderstood a lot  
Upset in the rain, she wish she could make it stop  
She feels the need to do what's inside her brain starts to connect the false relief to the act of hurting

Lenny part... (don't know Spanish)
