

# Sky Is Ours

Outlandish

Radical society  
Goodness there's no sincerity  
Can't feed no one  
Maybe not even one  
They took away my libery  
When I'm through security  
Let me know what's that  
Feast as in you're black  
Going through whatever  
To fit it togheter  
Tell me why we're all fighting for  
Radical society  
Good there no serenity  
Can't feed no one  
Maybe not even one

(Allah el baki bachala  
En mumbai ma griajo  
Felo de tonga Allah)

They can have this Earth  
This pile of dirt  
But the sky is ours  
They can have this Earth  
This pile of dirt  
But the sky is ours

Palabras y canciones son todo lo que ahora llevo yo  
Son en tema musical de mi reflejo  
Las cosas que he vivido son las cosas que me dan valor  
Hacen que me puedan ver en el espejo  
Estas cicatrices son lo que estoy  
Estas experiencias son la que doy  
Producto de la calle soy  
Lo bueno y el lo malo soy  
Estas son las cosas que me dan valor

(Allah el baki bachala  
En mumbai ma griajo  
Felo de tonga Allah)  
(Allah el baki bachala  
En mumbai ma griajo  
Felo de tonga Allah)

They can have this Earth  
This pile of dirt  
But the sky is ours  
They can have this Earth  
This pile of dirt  
But the sky is ours

Yeah aye aye aye  
Yeah  
Straight out the dirty dirt  
It hurts if you sleep  
So sit down 'cause you're blocking my cam rip  
Son of the most fly

Peak AK to the eye  
Who walked the green mount to your parking lot  
Yo soy inmigrante no refugee  
Bally will swag baby like we the king of the throne  
Copy a movie give it a twist and we call it our own  
A convicts creed and a concretes jungle see deep  
Moulin callin' the sons of P I J's  
Trought his daughter speak how she pleeds  
It's the corner shot carnival  
And you ain't here for free  
Look

They can have this Earth  
This pile of dirt  
But sky is ours  
They can have this Earth  
This pile of dirt  
But the sky is ours  
They can have this Earth  
This pile of dirt  
But the sky is ours  
They can have this Earth  
This pile of dirt  
But the sky is ours
