

# Walou

## Outlandish

Hey ain't nobody wanna go  
Ain't nobody wanna move  
Ain't nobody wanna try  
Ain't nobody stays alive  
Walou from walou  
It's me and u or walou  
Hey ain't nobody wanna go  
Ain't nobody wanna move  
Ain't nobody wanna try  
Ain't nobody will stay alive  
Walou from walou  
It's me and u or walou

Mamma please I can explain everything don't cry  
had to protect my friend from his friends  
I swear - no lie  
see before we knew it, the cops came  
put an end to it with these handcuffs  
took me down to the damn cell  
cuz I'm not a minor anymore  
tough !!!  
Now bail me out mom  
It won't happen again I promise  
Don't tell daddy about this  
He's working too hard to feel this

The 2nd guessing  
cause u never know when the guy upstairs blessing  
or testing u in sessions so be prepared for confession  
we all learn our lessons somehow and somehow  
when u fail u bow and even if u succeed u take a bow  
I'm telling u right here and right now u need to change  
rearrange u whole point of view cause for me it seems strange

De la nada sale el todo  
Y el todo se hace nada  
Hay espirales de consejos  
miles mares de palabras  
pero cada ser humano  
tiene su propia realidad  
cada alma sigue su ruta  
a diferente velocidad  
por eso queridos mios  
cuando muera  
no extranen mi presencia  
alegrias que vivimos  
problemas que pasamos  
aprendan de mis errores  
no siempre el agua es clara  
de la nada sale el todo  
y el todo se hace nada

From the nothing comes everything  
And everything becomes nothing  
We got spirals of advices  
Thousands seas of wise words  
But every human being

Have their own reality  
Every soul follows their route  
With a different velocity  
That's why, my dear ones, when I die  
Don't miss my presence  
The pleasures we lived  
The problems we went through  
Learn from my mistakes  
Cuz not always is the water clear  
From the nothing comes everything  
And everything becomes nothing

With empty palms people act empty  
those who got a lot act like they don't have plenty  
so u say u getting places but u ain't moving at all  
still some race on and some sit back and wait for his call

Let me take a little moment of time  
Going above them all - looking down  
Wondering - I'm wondering  
Why u don't wanna be by my side  
Time is flying - fly sky high  
Falling down - I'm falling down  
Oh what about my mom and my son lord  
Anything, I did for u lord  
I try to be nothing but pure  
Lord have mercy on me my self and I  
Should've never been around there  
Body - cold  
when I was already here  
suddenly I'm out of soul  
God I feel so low  
and I fear to show  
no matter where I go

U don't see  
U don't feel  
Beyond the walls u living in  
U made me  
Don't make me  
Loose the faith within me
