

# Loyalty

Outlawz

Loyalty....

Some of yall niggaz dont even know what the fuck that is  
A whole lot of niggaz (yeah)  
Some of yall niggaz'll never know Loyalty  
Wanna hate on me?  
Nigga fuck you and yo family  
I stay true to what I know and thats Outlaw (who?)  
It aint no me in this muthafucka without yall

We went from nothing to something  
Hustlin' and bubblin'  
And aint ask niggaz for nothin' (shit)  
Shit that made other cliqs I split  
Made us tighter  
Fuck the industry  
Cause I ain't no dick rider  
You see me nigga  
I ain't lost a pound  
Still eatin', still breathin'  
Still reackin' off that cali shit  
And I ain't never want muthafuckas to handle shit  
You see me pushin' .22's?  
Nigga handle it  
Feelin' good like we just won a championship  
New money, new label  
Keep it crackin' bitch  
And I'ma get the last laugh  
You can count on it  
And stay away from you mutherfuckas that's counterfeit  
Loyalty..... snitch ass nigga

Somethin' bout loyalty  
It always avoided me  
As far as my eyes can see  
I can only depend on me  
What's loyalty?

It's like a jungle sometimes  
We keep on hustlin'  
But they wanna take us under, under, under

God damn I'm glad you set it off  
Used to be hard  
Now you just went soft  
Poison, young nigga, bitch to society  
Once had love for em  
Why the fuck he lied to me?  
Kicked out the crew cause his soul aint strong  
Started sniffin' herion  
Nigga you wrong  
And I aint never hang around fag ass niggaz  
Rappin niggaz asleep in the county ass niggaz  
My family strong like the mafia  
It aint no thang to put a slug thru ya  
Scary ass nigga  
Damy ass nigga  
Wont throw rice in a wedding ass nigga

## Loyalty

I cant stand the fake and the snake never  
Worse the betrayal  
You scared of the heat muthafucka?  
Stay away from the barrel  
And I aint never been a rat  
Or been scared to ride  
A lot of niggaz act tough  
But know they pie inside  
Death before dishonor  
But you really scared to die  
We could spit a verse about you  
We put yo life on the line  
Military mind aint never put his nose on the line  
A real souljah never retreats  
When it's time for a crime

Hey yo....  
You can talk that shit  
But how many of yall can do what we did?  
Muthafuckas talkin' bout the Lawz aint shit  
Bitch ass nigga should get off the Lawz dick  
Muthafuckas mad that we got our own label  
Outlaw Recordz, we aint fuckin with you haters  
Niggaz know the Lawz been holdin' this down  
If you dont see him now  
We dont fuck with that clown  
Loyalty... (uhuh)

Somethin' bout loyalty  
It always avoided me  
As far as my eyes can see  
I can only depend on me  
What's loyalty?

It's like a jungle sometimes  
We keep on hustlin'  
But they wanna take us under, under, under

What's Loyalty?  
When a nigga say he love you  
But all awhile he dont think nothin' of you  
And that's just what love do  
Stab ya in the heart  
Grab you in the dark  
And rip families apart  
Damn... we was supposed to be fam  
We had plans  
Now I claim to understand you  
I guess life is a gamble  
I shook the dice  
But I betted on the peasent  
Then I took a dive  
Like oohhhhhh....  
How come I ain't know  
I should've seen it was simply soul  
Now I know.... what's loyalty  
It's all clear to me  
These words is for the birds  
You aint real to me  
Life is a liar  
Got me spinning like the tires

Hug a drunk driver, back and forth  
you ain't ready and you petty  
So I laugh it off  
But it's a cost to be the boss  
You gon' pay for not being loyal

My life's a blessin'  
My life's a lesson  
And if it's ride or die  
There aint no question  
Aint no time for second guessin'  
We aint bustas  
Niggaz aint new to this shit  
We some muthafuckin' ridahs  
And yall niggaz is the opposite  
I sense bitch like a dog sense fear  
So yall better act right  
Anytime that I'm near  
Live in yo ear  
Everyone's a ridah in here  
Cross game  
Watch them ridahs appear  
Muthafucka

Somethin' bout loyalty  
It always avoided me  
As far as my eyes can see  
I can only depend on me  
What's loyalty?
