

Ghost Of You

Outline in Color

Another ghost of you

Haven't slept in two days
Not for lack of trying
I just can't calm all the voices in my head
I feel like dying
Like I'm drowning but the light it never comes
It's like a funeral march forever to the drums

Play, you say you wanna pay
I say that I am wanting more
What I'm striving towards
Money cannot buy
You can't afford
It's clear you're already breaking down

Is it over yet?
You're not making sense
An unfortunate mistake
Leaving ashes in your wake

So set fire to your hopes
And your dreams
Is this what you wanted?
Stab me deep
In the back
Make me believe it
I hope you make it through

Done with your games
I see clear now that I'm older
Stab me deep
In the back
Make me believe it
Another ghost of you

You've been chasing highs that you can't reach
You're hardly faded
Got the trigger to your head
You're in love with being hated
Like you're drowning, but the light, it never comes
I'm breaking down

Face to the pavement
Heart in the clouds
Stuck inside my head
With the memories
It's over now

So set fire to your hopes
And your dreams
Is this what you wanted?
Stab me deep
In the back
Make me believe it
I hope you make it through

Done with your games
I see clear now that I'm older
Stab me deep
In the back
Make me believe it
Another ghost of you

Is it over yet?
You're not making sense
An unfortunate mistake
Leaving ashes in your wake
Is it over yet?
You're not making sense
An unfortunate mistake
Leaving ashes in your wake

Now you'll only see
What you want to see
I just can't forget the pain
Always haunting me

So set fire to your hopes
And your dreams
Is this what you wanted?
Stab me deep
In the back
Make me believe it
I hope you make it through

Done with your games
I see clear now that I'm older
Stab me deep
In the back
Make me believe it
Another ghost of you
