

# Punishment

## Outline in Color

Mixing pills with emotional vices  
Disagreement to physical violence  
Hate in my veins multiplies like a virus  
Working my demons out with exorcises

When I reach out for help  
Nobody's home  
All that you promised  
It left me feeling all alone  
So everybody's gonna know

You're the sickness inside my head  
You make me wish I'm dead  
Feels like I'm insane  
Trade my pride for punishment  
Sickness inside my head  
You make me wish I'm dead  
I can't deal with the pain  
Trade my pride for punishment

Every day it's the same old story  
Tired eyes cause my memory's blurry

When I reach out for help  
Nobody's home  
All that you promised  
It left me feeling all alone  
(Feeling all alone)  
Everybody already knows

You're the sickness inside my head  
You make me wish I'm dead  
Feels like I'm insane  
Trade my pride for punishment  
Sickness inside my head  
You make me wish I'm dead  
I can't deal with the pain  
Trade my pride for punishment

Trade my pride for punishment

Taking all these pills  
Trying to keep myself happy  
Lying through my teeth  
So my life means something  
Don't know what I did, don't know what I said  
Don't know how to fix everything I made  
Pushing you away, now I'm pulling you back in  
Don't feel any better so I'll be here pretending  
Don't know what I did, don't know what I said  
I can fix everything

You're the sickness inside my head  
You make me wish I'm dead  
Feels like I'm insane  
Trade my pride for punishment
