

Stay Away

Outline in Color

Can you admit
You focus on the wrong things
How could you blame me
Slipping further towards insanity
Insanity
Unraveled naked on the floor
Morals out the door
Committing to depravity
It's killing me
The pain's too much to carry
What will it take for us to end this war

Stay away
If you didn't notice
We're falling apart
I won't make the
Same mistake
My heart's not yours to take

Lie through your teeth
I can't trust a word that you speak
I've heard what falls from your lips
Every night when you fall fast asleep
Fast asleep
Frozen in the past
Retracing steps in place
Forever chasing what I've only had a taste
So just

Stay away
If you didn't notice
We're falling apart
I won't make the
Same mistake
My heart's not yours to take

My heart's not yours to take
Uh
My heart's not yours to take

It's a long ride back
When you fall this low
Can't remember any times
That I was feeling whole
Take me back to the place
Where I split my soul
Years of abuse
Have taken their toll

It's a long ride back
When you fall this low
Can't remember any times
That I was feeling whole
Take me back to the place
Where I split my soul
Years of abuse
Have taken their toll

Stay away
I won't make the
Same mistake
My heart's not yours to take

Oh, I don't want to be hopeless
Feeling so helpless
If we don't stop now
How will we ever
I don't want to be hopeless
Feeling so helpless
So stay away
My heart's not yours to take
