

# The Storm

## Outline in Color

Hold on to something near you  
Hold on because the floors about to fall through  
Hold on  
Don't make a sound now  
Hold on because our worlds about to come down

Stuck in this purgatory  
This can't be the end of our story  
The clouds roll in  
Her stare could break the skin  
Swollen eyes and busted lips  
I can't seem to get a grip  
Everything's a trigger  
So sweet but yet so bitter

And now a hurricane is spinning in out of control  
The walls are shaking  
Windows breaking  
I think something's wrong  
We're holding on to what is falling  
Doesn't everyone?  
We're holding on to what is falling  
Cause' we can't let go

Hold on to something near you  
Hold on because the floors about to fall through  
Hold on  
It's a steep fall  
I don't know if we can hold on  
Is this it for us?  
I'm fucking hurt and I need your touch

And I'll sing that song like you used to  
Sing that song like you used to  
Hold on love  
I won't lose you  
Sing that song like you used to

Hold on to something near you  
Hold on because the floors about to fall through  
Hold on  
Don't make a sound now  
Hold on because our worlds about to come down

The clouds  
The clouds they roll in  
Oh  
Lightning crashes  
Love and hate clashes  
Swollen eyes and busted lips  
I wish that I can get a grip  
All I feel is pain  
I'm coming back and I'm bringing hell with me  
Watch what you say  
Why can't I just walk away?

And now a hurricane is spinning in out of control

The walls are shaking  
Windows breaking  
I think something's wrong  
We're holding on to what is falling  
Doesn't everyone?  
We're holding on to what is falling  
Cause' we can't let go

Hold on to something near you  
Hold on because the floors about to fall through  
Hold on  
Don't make a sound now  
Hold on because our worlds about to come down

And I'll sing that song like you used to  
Sing that song like you used to  
Hold on love  
I won't lose you  
Sing that song like you used to

Well sing that song like you used to  
Sing that song like you used to  
And hold on love  
I won't lose you  
Sing that song like you used to

And I'll sing that song like you used to  
Sing that song like you used to  
Hold on love  
I won't lose you  
Sing that song like you used to
