

## Wrong Hand

### Outta Pocket

Moment of truth  
An eye for an eye  
Your pathetic excuse  
Won't get you by  
Reality check  
I know where you hide  
Talkin' out your neck  
The moment you met your demise

Now you know that you fucked up  
Played the wrong hand now you're pushing your fucking luck  
Waiting for the day you give in  
Suckas lose and I always win

And you know you gonna lose your fucking life tryna change your  
words on some shit I won't buy  
Pay the price cuz your days are through  
Better end your life now because you know you're gonna lose

Just when you thought  
You got me all figured out  
I'll show you  
What the fuck you're really about  
You will see  
You can't get far

Force to bleed  
For the bitter end  
Waiting all this time  
Just to be condemned  
The blood you shed  
A promise unkept  
Pay the dues  
Your life in debt
