

Weightless

Over It

bent out of shape we make our way straight
i would never take a chance on it if it didnt paralyze me
completely

sure you think its all fun, but games are all i've won in this
life
i wouldnt give it all up if it meant id never feel so weightles
s

rebuilding the puzzle ive found scattered all around

i invent myself with every breath
to take a step i look ahead
and size up anything that makes me tremble.

i cant tell if the shifting pattern exists
before i make it, but does it matter?
you've got the time to find out for yourself.
