

Here we go we both said yes  
To forever and whatever comes next  
I've been around in circles now you're here

Your love surrounds me, there's a warmth you bring  
A cup of coffee in the pouring rain

Hands intertwined and you're looking in my eyes  
Gonna leave it all behind 'cause it's only you and I  
We're spinning round hear the music playing loud  
We don't care if there's a crowd we don't

We've only got  
One love, one love shared by two  
Two hearts, beating me and you  
Three words  
I love you

I've only got  
One life, best it's spent with you  
Two minds, thinking what we'd do  
Three words  
I love you  
Baby, I love you

Unsure of what tomorrow brings  
As long as it's you I know I'll sing

Hands intertwined and you're looking in my eyes  
Gonna leave it all behind 'cause it's only you and I  
We're spinning round hear the music playing loud  
We don't care if there's a crowd we don't

We've only got  
One love, one love shared by two  
Two hearts, beating me and you  
Three words  
I love you

I've only got  
One life, best it's spent with you  
Two minds, thinking what we'd do  
Three words  
I love you  
Baby, I love you

We won't have to leave  
We'll stay here  
Lay here

I won't ever long for nothing more

Nothing to hide, I'm addicted terrified  
Gonna put it all aside 'cause it's only you and I  
We're spinning round hear the music playing loud  
We don't care if there's a crowd we don't

We've only got  
One love, one love shared by two  
Two hearts, beating me and you  
Three words  
I love you

I've only got  
One life, best it's spent with you  
Two minds, thinking what we'd do  
Three words  
I love you  
Baby, I love you

I love you  
Baby, I love you

Baby, I love you
