

Alive

Over October

The way you move the way you speak is beautiful
The way your hair moves in the wind is beautiful
The things you say in your perfect way they're beautiful
The way you laugh and your pretty smile's so right

You are life

I wish you were here
I wish you were near
I wish you've stayed
I wish we didn't fade
I hope you're alright
I hope I survive
But I'm still alive
We're still alive

The way you dance the way you walk is beautiful
The way you talk and purse your lips is beautiful
The way you sing your everything you're beautiful
The way you look me in the eyes is so right

You are life

I wish you were here
I wish you were near
I wish you've stayed
I wish we didn't fade
I hope you're alright
I hope I survive
But I'm still alive
We're still alive

Cause when we're inches from each other it's like miles and miles apart
And I can see it in your eyes although we knew right from the start
With the two of us together we'd end up with broken hearts

But I love you
Oh, I love you
I still love you
I will love you
