

Kylo ?

Over October

Kylo tell me what's inside your mind
So I can tell myself what to put in mine
You are everything I want to be free

Kylo do you miss your mommy cause it shows
I know it's something that we have in common
Though I've tried to show it, I've never tried like you

Fly me away in the past is where I'll stay
Rid me of my secrets
Rid me of my problems
Fly me away let me live in yesterday
They don't know a single thing about you

Kylo you've been taking all the blows
Please tell me if this is really how it's meant to be
I don't want to turn the other cheek
I wish I could be a little more like you see things through you
r eyes
I'll treat you right
I'll treat you right
Please
Please

Fly me away in the past is where I'll stay
Rid me of my secrets
Rid me of my problems
Fly me away let me live in yesterday
They don't know a single thing about you

Show me the way inside my heart
Release me and help me get back to the start

See me
See me
