

Mr. Sun

Over October

In a time when timings always wrong
In a world where the world keeps spinning on
I find the light and my life just opens up oh

In this space where the walls keep closing in
In this bed where the sheets are getting thin
I just find you and everything gets clear oh

All we have is here
As long as we are near

Hey there Mr. Sun how are you doin'
Hey there Mrs. Moon your stars are all singin'
Cause as long as there's each other the world won't even matter
and life would be a simple bliss
It'd be as simple as this

In a time when people make mistakes
In a world where it's filled with pain and heart breaks
I call out and find peace when I see your face oh

All we have is here
As long as we are near

Hey there Mr. Sun how are you doin'
Hey there Mrs. Moon your stars are all singin'
Cause as long as there's each other the world won't even matter
and life would be a simple bliss
It'd be as simple as this

Hey there Mr. Sun how are you doin'
Hey there Mrs. Moon your stars are all singin'
Hey there you're the one the reason I'm singing
Hey there you're the one hear my heart beating
Cause as long as there's each other the world won't even matter
and life would be a simple bliss
It'd be as simple as this
