

Paradise

Over October

You see
You look around you and you see
Yeah you hear
My gentle whisper in your ear

Do you wanna go?
Take a second take a minute take an hour
Love ain't that easy it's like water to a flower
No jumping in just take a step back see the power
And just fall in love

Cause with fear comes strength it's from above
And the gods gave us paradise and called it love
Let go of all your inhibitions
This ain't a competition
Get up get down take a look at the view
Everything seems perfect when it's me and you
Let go let loose stop pretending
Pick yourself up I'll be standing by you

You feel
The pictures moving in a reel

Yeah I think we should go
Take a second take a minute take an hour
Love ain't that easy it's like singing in the shower
No jumping in just take a step back see the power
And just fall in love

Cause with fear comes strength it's from above
And the gods gave us paradise and called it love
Let go of all your inhibitions
This ain't a competition
Get up get down take a look at the view
Everything seems perfect when it's me and you
Let go let loose stop pretending
Pick yourself up I'll be standing by you

Cause with fear comes strength it's from above
And the gods gave us paradise and called it love
Let go of all your inhibitions
This ain't a competition
Get up get down take a look at the view
Everything seems perfect when it's me and you
Let go let loose stop pretending
Pick yourself up I'll be standing by you
I'll be standing by you
