

## Reflection

Over October

There's no easy way around it  
There's no easy way to fight it  
When the voices in my head tell me things  
I don't wanna hear  
The noises in my bed make me think  
I just wanna disappear

You tell me to heal  
You tell me to grow  
So many more questions in your soul  
I see it all  
I see it all  
I see it all

Just tell me truth  
Just tell me what's right  
I see my reflection in your eyes  
I see it all  
I see it all

Good times go but bad times stay  
All the memories encapsulate my fate  
It's a quarter life crisis (aught sis)  
You taught me well  
All the secrets that you keep aren't mine to tell

You tell me to heal  
You tell me to grow  
So many more questions in your soul  
I see it all  
I see it all  
I see it all

Just tell me the truth  
Just tell me what's right  
I see my reflection in your eyes  
I see it all  
I see it all  
I see it all

It's been years since you've been here  
(I've been losing all control)  
A few more days into the clear  
(Diamonds they start as coal)

I got shoes to break in  
Maybe love will fade in  
And I'll find my way back home  
My way back home  
My way back home  
Woah

You tell me to heal  
You tell me to grow  
So many more questions in your soul  
I see it all  
I see it all

I see it all

Just tell me the truth  
Just tell me what's right  
I see my reflection in your eyes  
I see it all  
I see it all  
I see it all

You tell me to heal  
(You tell me to heal)  
You tell me to grow  
(You tell me to grow)  
So many more questions in your soul  
(So many more questions in your soul)  
I see it all  
(I see it all)  
(I see it all)

Just tell me the truth  
Just tell me what's right  
(Right)  
I see my reflection in your eyes  
I see it all  
(Reflection in your eyes woah)  
(Tell me tell me tell me something)  
(Tell me tell me tell me something)
