

Leave If You Wanna

Overcoats

Time moves so slow
When I watch you go
Watching how we unfold
Out of body you can't find me
We come crashing down

Why don't you leave if you wanna leave if you wanna
Why don't you leave if you wanna leave if you wanna
Why don't you leave if you wanna leave if you wanna leave if yo
u wanna

Control, killjoy, heartless, decoy
Calling the kettle black
Slander my name when you feel pain
You're only as good as the one you blame

Why don't you leave if you wanna leave if you wanna
Cause I can be who I wanna be if I'm honest
Why don't you leave if you wanna leave if you wanna leave if yo
u wanna

If you weren't so concerned with settling the score
I could stop crying and get up off the floor
Sometimes it's not worth it just to be right
This is how you lose me and how you win a fight

Why don't you leave if you wanna leave if you wanna
Why don't you leave if you wanna leave if you wanna
Why don't you leave if you wanna leave if you wanna leave if yo
u wanna

Why don't you leave if you wanna leave if you wanna leave if yo
u wanna
