

# Wait For Me Darling

Overcoats

Funny how you said it'd be easy  
My dreams take me away from you  
When we are together, I think about forever  
Wanna see this thing through

Wait for me darling, I'm coming home  
Will your face look the same?  
Things are changing, but oh how I've grown  
I'm ready to call your name

And I'm on my way, you know I'm heading home

Hooked on the bottles in the nightly rush  
This is how I fuck things up  
Falling asleep in lobby chairs  
I never thought you'd still be there

Wait for me darling, I'm coming home  
Will your face look the same?  
Things are changing, but oh how I've grown  
I'm ready to call your name

And I'm on my way, you know I'm heading home  
And I'm on my way, you know I'm heading home

Been so long but I'm ready now  
Been so long but I'm ready now  
Been so long but I'm ready now  
I'm ready now, I'm ready now  
Been so long but I'm ready now  
Been so long but I'm ready now  
Been so long but I'm ready now  
I'm ready now, I'm ready now

And I'm on my way, you know I'm heading home  
And I'm on my way, you know I'm heading home

And I'm on my way, you know I'm heading home  
And I'm on my way, you know I'm heading home
