```
[First Underground Commission on Termination]
We got the killing
You got the time
We got the making of a terminal blind
We got the risk
You got to take
We got the making of a big mistake
Got no faith
Got no reason
Got no hope
Got the treason
We got the hit
already took
Hate to tell you
But I think you're fuct
All about face
All about life
All about walking the edge of the knife
All about race
All about death
All about getting out of this mess
We got the truth
You got the hurt
We got the answer that you just insert
We are explicit
You are expossed
We are the making of the decomposed
Got no faith
Got no reason
Got no hope
Got the treason
Got the kaos
Runamuk
Bite down hard
You're about to be fuct
All about face
All about life
All about walking the edge of the knife
All about race
All about death
All about getting out of this mess
We are the day
We are the night
We are the stop sign in the road of life
```

We are the message

Unreturned

We are the next about to be burned

Got no faith
Got no reason
Got no hope
Got the treason

Change your mind Change your look Change your heart Now you're fuct

All about face
All about life
All about walking the edge of the knife

All about race All about death

All about getting out of this mess

All about face
