

Miss Misery

Overkill

Since you came into my life
It's the same old situation
Empty days and lonely nights
Filled with bitterness and frustration
Walkin' lonely in the cold
Tryin' to find the answer
Spend my money on a crystal ball
And the charms of a gypsy dancer

Got to break the spell you hold on me

You're miss misery
It's all that you'll ever be
Set me free, set me free
Please, please, please

Every day is filled with shame
My nights are filled with anger
Hollow lies forced denial
If you told the truth I can't remember
You know I've got to find my way
Got to find a reason
Got to find your weakness
So I can end your witchin' season

Got to break the spell that you hold on me

M m m m m miss misery
It's all that you'll ever be
Set me free, set me free
Please, please, please

Can't think how I got myself
Caught up in this nightmare
Evil schemes, midnight screams
Come on, somebody, listen to my prayer
I'd give all I've got to give
Just to find my way out
Got it goin' but I can't let go
I'm trapped on this crazy 'round about

Tryin' to break the spell you hold on me

You're miss misery
It's all that you'll ever be
Set me free, set me free
Please, please, please

M m m m m miss misery
All that you'll ever be
Set me free, set me free
Please, please, please

You're miss misery
All that you'll ever be
Set me free, set me free
Please, please, please
