

## Out on the Road-Kill

Overkill

Running out of options, running out of road  
Stopped to help me shoulder up my load  
Invisible can't hear us, we make no sight or sound  
We're heading due south to the underground

Supreme power and an upper hand  
Imported in, from a foreign land  
Some bad motherfuckers asking, where you been  
I've been out on the road again  
Road kill, road kill and cash in hand  
Making hay in the native land  
Viva the uproar, viva the stand  
We gone out on the road again

Casting them in iron, casting the first stone  
Stopped to breathe, I knew we're not alone  
The first he was a lion, the second was a lamb  
The third held proclamations for the damned

Don't leave me on the road  
Don't leave me on the road  
Don't leave me

Supreme power and an upper hand  
Imported in, from a foreign land  
Some bad motherfuckers asking, where you been  
I've been out on the road again  
Road kill, road kill and cash in hand  
Making hay in the native land  
Viva the uproar, viva the stand  
We gone out on the road again

Hey don't you leave me on the road, on the road  
Hey can you help me with my load to carry  
Hey don't you leave me on the road, on the road  
Hey don't you leave me, leave me on the road

Supreme power and an upper hand  
Imported in, from a foreign land  
Some bad motherfuckers asking, where you been  
I've been out on the road again  
Road kill, road kill and cash in hand  
Making hay in the native land  
Viva the uproar, viva the stand  
We gone out on the road again

Running out of options, running out of road  
Left to die [?]
