

# Scorched

## Overkill

Way down deep in the fire  
Way down deep in the flame  
Way down deep in the hole I dug  
Way down deep in the pain

I'm a flash in your atmosphere  
Atomic wind blowing into your night  
Crash and burn, let me make it clear  
And give 'em just a little light

Will you miss me when I'm gone?  
Will you kiss me at rebirth?  
Will you miss me dead and gone?  
Gone to scorch the earth

Scorch the earth, scorch your brain  
Scorch your dreams and what remains  
Scorch the good, scorch the bad  
The best damn firestorm you ever had

Scorch the earth and your brain  
Scorch your dreams and what remains  
Scorch the good, scorch the bad  
The best damn firestorm you ever had

Way up there in the heavens  
Way up beyond the sky  
Way up there where God looks down  
Way up where I get high

Will you miss me when I'm gone?  
Will you kiss me at rebirth?  
Will you miss me dead and gone?  
Gone to scorch the earth

Scorch the earth, scorch your brain  
Scorch your dreams and what remains  
Scorch the good, scorch the bad  
The best damn firestorm you ever had

Scorch the earth and your brain  
Scorch your dreams and what remains  
Scorch the good, scorch the bad  
The best damn firestorm you ever had

Speak to me in my own tongue  
Scorch the earth, all the land, my son  
Hide your face in the veil of shame  
Keep cracking the whip and bringing the pain

Speak to me in my own tongue  
Scorch the earth, all the land, my son  
Speak to me in my own tongue  
Scorch the earth, all the land, my son

Scorch the earth, scorch your brain  
Scorch your dreams, scorch what remains

Scorch the good, scorch the bad  
The best damn firestorm you ever had

Scorch the earth and your brain  
Scorch your dreams and what remains  
Scorch the good and the bad  
The best damn firestorm you ever had

Scorching the earth  
Scorching the earth  
Scorching the earth
