

## The Wheel

Overkill

I got a real bad feeling about where you're coming from  
I got a real good sense of evil and it tells me you're the one  
And I'd love to sit and have a drink to feel  
And I'd love to quit the war and think, but I must grease the wheel

I don't meet what's called you kind everyday  
I have sun across the universe, on the funeral highway  
And I love to sit, to lick my wounds and heal  
Or soar around the blue moon, but I must fix the wheel

I am the wheel, a turbine that is spinning the in night, and I'm all right  
Of stone and steel, yes a reflection what you think about me  
Yes but can you live without me, yes I feel, I am the wheel

Turn like a spinning top, burn and you never stop, I got the fever and the feel for the wheel  
Here comes Mr. Wonderful, with his new magnetic deal  
There goes Mr. Kiss My Ass with everything he steals  
Turn like a spinning top, burn and you never stop, I got a feel for the wheel

I'd love to sit to have a drink to feel  
And I'd love to quit this war and think, but I must grease the wheel  
And I love to sit, to lick my wounds and heal  
Or soar around the blue moon, but I must fix the wheel
