

## Drive On

Owen Riegling

Life's a winding road that we keep driving  
We don't know where it goes but we're surviving  
And if I get it my way  
I'll have a little house off a byway somewhere  
And all that you get back is what you've given  
The little things make it all worth livin'  
We go to church on Sundays  
Back to work on Mondays that's right

Time goes on and we get strong  
Grow up quick and then we're gone  
And all we go is somewhere down this road  
But loves so good, to leave it hurts  
We miss our moms we miss our church  
We miss the things we all grew up on  
Guitar man with the quick right hand  
And you've been in ped and the big time plans, drive on

Each year's like a chapter in this book  
Sometimes I flip back and take a look  
Smile about the old days  
Laugh about my old ways in hair

Time goes on and we get strong  
Grow up quick and then we're gone  
And all we go is somewhere down this road  
About your time we may cheer on  
Makeup and just move on  
And all you'll see just how far you go  
Guitar man with the quick right hand  
And you've been in ped and the quick time plans, drive on

These days I've been feelin' pretty good  
I'm thankful for these strings wound the wood  
And I still pray on Sundays  
Back to work on Mondays that's right  
Time goes on and we get strong  
Grown-up know and on our own  
Here we are settled down this road  
All those years of running round  
Finally, we're all settled down  
Raising up families of our own  
Guitar man with the quick right hand  
And you've been in ped just drive on down that road
