

Vivid Dreams

Owen

How long have I been sleepin'? Are you sure that I'm not dead?

I saw me as a young man dancing kickin' up dirt and finishing fights
Your sister was there With all her punk friends

But I couldn't find you

How long have I been sleepin'? I'm a dad and my dad's dead

So much has changed Even our skies look different

Once I was in love knee-deep in secrets kept from myself Life became a lie
Then I woke up

I'm so glad I found you
