Better you arrest me, badman stress
Woman or woman nuh fit stress me
You coulda taught me, see the way you test me
You see the way social media's so cold
Love's easy to find, harder to hold
Most stories end and start with a phone

A year younger than man from east
She got the tribal mark and she used to be friends with Peace (Ou lo lo)
Oh, let me know peace

It's what I'm lookin' if I'm headed to the streets
That's why I'm intoxicated, like what these girls want from a-
