Free Me, Leave Me

Oz

First time I called you, they said that you'd run
I felt so desperate
All of those nights that I spent alone
I could have gone out
Now I don't care about you at all
I've got my own life
But if you don't love me, why did you call?
Why did you fall?

*What you're doing to me
Why don't you set me free
You don't have any heart
But you tear mine apart

Free me, leave me, free me
Free me, leave me, free me

Everything that I've shown you today
You have mistaken
Won't last forever, but it's always war
That's what I'm saying
