

# Night Crime

Oz

I was always the talk of the town  
Without the reason  
Just stealing time around  
Only boy from the streets of the pain  
Can honestly say so  
This moment it's freezing in my veins

Ooo-oo I did it against the system  
Ooo-oo those days I miss them

Night crime, always the talk of the town  
Night crime, angels all around

A silent breath from the lane  
It was hunting season  
It's hurting ooh, me again  
It rapped a boy to the ground  
It had to be so  
Angels all around

Ooo-oo I did it against the system  
Ooo-oo those days I miss them

Night crime, always the talk of the town  
Night crime, angels all around

Oh, sweet emotion, it got a hold on me  
Hiding the daylight, it takes the killer out of me  
I don't wanna pray, I love the taste of life

I got nothing to say, oh... go

I was always the talk of the town

I can't find the reason

Angels all around

Ooo-oo I did it against the system

Ooo-oo those days I miss them

Night crime, always the talk of the town

Night crime, woo-o angels all around

Night crime, always the talk of the town

Night crime, let it roll, angels all around
