

Runnin' the Line

Oz

Hey, I'm looking for fool
Don't ask me (to) cast every dime
I'm learning something new
Do you know the time is swaying lime
I'm running, I'm running
I'm running through the light
I'm running, you're running
We're running through the night
Runnin' the line
Runnin' the line
Passtime, our passion key
Your hands are fast again
Oh jee, it's alright, feel
Don't you know what I do and when
I'm running, I'm running
I'm running through the light
I'm running, you're running
We're running for the fight
Smoke floats in your eyes
When you're going to the fight
Forget all those gangling lies
And feel the rhythm of night
I'm running, I'm running
I'm running through the light
I'm running, you're running
We're running for the fight
