

# We Are Incurable Romantics

Ozark Henry

There's nothing we can do about it  
We are incurable romantics  
We're here only for the ride  
We are incurable romantics  
To cross the ocean that's between us  
We are incurable romantics  
To look the monster in the eyes  
We are incurable romantics  
If for once I could catch a butterfly  
You are an incurable romantic  
In the heap I'll treat you like a lady  
You are an incurable romantic  
Save yourself  
Save your world  
The dragon you're after is the sweetest thing on earth  
It's showing us a way to heaven  
Since you  
There's after and there's before  
You are an incurable romantic  
Same world  
But different hallways and doors

You are an incurable romantic  
In my head nothing's making sense  
We are incurable romantics  
I see flares no one fired, baby  
We are incurable romantics  
To save yourself  
To save your world  
The dragon we chase is the sweetest thing on earth  
It's showing us a way to heaven  
We'll crash and burn to see the crown  
"It might be worth it", spoke the clown  
So who's the clown  
I'll swim the ocean that's between us  
You are an incurable romantic  
I'll look the monster in the eyes  
You are an incurable romantic  
Far and near  
Velvet and veneer  
We are incurable romantics  
I have thoughts  
Thoughts I truly fear
