

When I Close My Eyes

Ozomatli

Every night I'm dreaming
Of a new and better world
But I feel the cancer
Taking over me

Inside I'm screaming
My chest is about to burst
I feel so powerless
Against this mental prison

Everyday I'm getting stronger
I feel ten feet tall right now
Every night I feel I'm about to fail
No one's gonna break my fall
Don't worry, it'll get much better

When I close my eyes
The vision inside me
Comes to life outside
The world's much better now

When the night is falling
Your hope has gone to dust
The creep that hurts you
Will know when it's time to quit

The power inside you
Let it come and work it out
The strength within you
Will make the sadness disappear

Everyday I'm getting stronger
I feel ten feet tall right now
Every night I feel I'm about to fail
No one's gonna break my fall
Don't worry, it'll get much better

When I close me eyes
The vision inside me
Comes to life outside
And the world's much better now
