

# All The Same

Ozzy Osbourne

you think its all the same but I want you to believe I could be

So like you

by now you've figured out that I want you educated cause its

So like you

because its all the same

I could be something like you

because its all the same

watch you kill for me

Everytime I want to and everyday I will be

So like you

hitting on the helpless smoking with the infants cause its

Just like you

So hidden in the picture

I'm wrapping the world around me

they've been insisting theres no difference between us

Dont listen turn around

people might just see you

now make yourself a part of me

a part of me to let you go
