

Eat Me

Ozzy Osbourne

I'm on the menu
You won't get indigestion
I even come with dessert
I'm not your poison
You won't need medication
Your insides won't even hurt

Eat me
From my skin down to the bone
Eat me
You cannibal, haha
Eat me
You can even give the dog a bone
Before I change my mind and I sink my teeth in you
Eat me, hahahaha

A second helping
My meat is nice and tender
One bite and you will be sold
Take me for later
I have no expiration
My blood will never go old

Eat me
From my skin down to the bone
Eat me
You cannibal, haha
Eat me
You can even give the dog a bone
Before I change my mind and I sink my teeth in you
Eat me

Smile as you rip flesh from my spine to my legs
Vile, all the scary things you'll find inside my head
Bite till I'm dead

I'm on the menu
Are you hungry?

Eat me
From my skin down to the bone
Eat me
You cannibal, haha
Eat me
You can even give the dog a bone
Before I change my mind and I sink my teeth in you
Eat me
Eat me
