

Scary Little Green Men

Ozzy Osbourne

Their colours are blinding me again (I don't belong here)
The skyline is bleeding black and red (How did they get here)
How long, how long, have they been living in my head
How long, how long, we bite our tongues and play pretend

They want us, they need us
They might just try to eat us
They'll greet us, deceive us
Say, "Take us to your leader"

Everybody wants them
Until we meet them
Everybody wants them
It's the end
Scary little green men
Do you believe in
Scary little green men
It's the end

They're hiding amongst us everywhere (They don't belong here)
They're silent, they may be violent, I don't care (I don't belong here)
How long, how long, have they been living in my head
How long, how long, we bite our tongues and play pretend

They want us, they need us
They might just try to eat us
They'll greet us, deceive us
Say, "Take us to your leader"

Everybody wants them
Until we meet them
Everybody wants them
It's the end
Scary little green men
Do you believe in
Scary little green men
It's the end

Men on the moon, won't you tell us the truth
Is there anyone out there
Feeding us lies as we look to the sky
Is there anyone out there now

"Take me to your leader"
"We come in peace"
"I'm human safe"

Everybody wants them
Until we meet them
Everybody wants them
It's the end
Scary little green men
Do you believe in
Scary little green men
It's the end

Men on the moon, won't you tell us the truth

Is there anyone out there
Feeding us lies as we look to the sky
Is there anyone out there now

Look up to the sky
Is there anyone out there now
Ah-ah-ah-ah-ah

Scary little green men
Do you believe in
Scary little green men
It's the end
Scary little green men
Do you believe in
Scary little green men
It's the end

"We will not kill you, we want to come in peace"
"Don't worry, we are here, friend"
"That's good"
