1. Time has come to say goodbye
A E F#mi D C#mi
I know it's gonna make you cry
D E
But you belong to another my love
D E
And half a love, that just isn't enough

A E F#mi D C#mi
R: I am so tired -so tired-
And I just can't wait around for you
I am so tired -so tired-
And I always thought we'd see it through, yeah

2. I've waited all this time for you
Believed your promises were true
I keep believing that you mean what you say
Be my tomorrow, now tomorrow's today

R: I am so tired -so tired-...

D E
*: And I often sit and wonder why
D E
You're not with me tonight
F#mi E
I stayed at home remaining true
D E
While you do what you want to do, yeah

R: I am so tired -so tired-...

So tired, so tired
So tired, so tired
So tired, so tired, yeah
