

# Time

Ozzy Osbourne

The time has come for you to make up your own mind  
Stop looking for the answers that you'll never find  
Save all your tears for when you really need to cry  
Don't wish your life away to spread your wings and fly

[Chorus:]

Time waits for no one yeah  
It's never what it seems  
Stop waiting for tomorrow  
Stop living in your dreams  
This life fading away  
This life ticking like a time bomb ready to blow your tortured  
mind  
I know it's wasting away  
We don't plan for when it goes wrong  
The time that we lose we will never find time.

Can't hide the clock when every line shows on your face  
So take it slow you'll never win the human race

[Chorus]

Just live every moment of each day  
Cause death is the price we all must pay

[x2]

This life fading away  
This life ticking like a time bomb ready to blow your tortured  
mind  
I know it's wasting away  
We don't plan for when it goes from  
The time that we lose we will never find time.
