P-Lo

"Make a choice, you just decide, what's it's gonna be, who you're going to be, how you're going to do it, just decide, and then from that point, the universe is gon' get out your way"

Aye, aye, aye

Aye, aye, aye

Aye, aye, aye (P-P-P-Lo, time to bring the bass back)

Keep a lot of bands, stack it up, stack it up
