On my climb to the top, I took the elevator  
People talkin' down cause they ain't gettin' paper  
Tell a broke ho, never bring my name up  
Cause we ain't never been associated

I'm 'bout paper, I don't need no favors  
I told Lo that these beast get ate up  
And if the pearl sweet, I might be a life saver, huh  
I'm starvin', I ain't ate much  
It would kinda beer, I don't play much

I follow my own steps, you just made up  
No time, only time for the show

Whatchu think I' in it for?

Some love, some hate  
But I do it for both, I'm the who they appreciate  
Never hesitate, Man I bolt to the cash  
And just like a girl, I like when it comes fast

I don't gotta lie, I just talk about what I live in  
I don't pay no mind, when they talkin' about a limit  
See my niggas at the crib and see them on the television  
It's real, no fugazi  
Steez so blaitant  
If it ain't no more G shit, I'm probably in the latest  
That's probably why they been lookin' at me crazy  
But I don't show love to motherfuckers that be hatin'  
From them I keep a distance, it's all about consistence  
Shmop life I'm dipped in, cookies got me lifted  
I'm rarely on the scene, I see how it go down  
So I'm plottin' on the cheese, that's all that I'm about  
Yeah  
That's the truth like a fact  
Most of the shit I hear, they be pushin' that beat wack  
Do this for my city, Imma put us on the map  
And shout my nigga P-Lo, cause he put me on the clap

It ain't really nothin' right now, (right now)  
You now I'm gettin' money right now, (right now)  
My whole clique stuntin' right now, (right now)  
Your whole clique frontin' right now, (right now)  
You ain't really'bout get money right now (shit)
