P-Lo

Cal-A, keep it lit

You say you was down for me (Oh yeah, oh yeah)  
If you really want it, then make it- (Oh yeah)  
Aye

I'm not the picture they're trying to paint me as  
Say things that I don't mean just to take it back  
Never said I was going to be perfect  
You just hoping that it's worth it, aye  
'Cause there new hoes  
Yeah, there's always new hoes  
I promise they not you though  
You feel good like new clothes  
On the first day of school, loved the way you moved  
We can make through, it's just me and you, aye  
You said you had my back like chiropract (Yeah)  
Wanna rock with you just like I'm Micahel Jack (Just like I'm Mike Jack)  
I told you that forever is a long time  
But I wouldn't mind if you by my side, oh yeah

You say you was down for me, yeah yeah  
You should tell me what it's gone be, yeah yeah  
If you really want it, then make it real  
You say you gon' love me, then say you will (Say you will)

You say you gon' love me baby, say you will (Woo)  
You say you gon' trust me baby, say you will (Say you will)  
You say you gon' fuck me baby, say you will (Woo)  
Baby say you will, baby say you will (Say you will)

Baby say you will  
Baby say you will  
Baby say you will, baby say you will, baby say you will

You all I got, you all I got now (Got now)  
Pray you keep it silent when I'm not around (Not around)  
Hope you not dishonest, hope you not dishonest (Not dishonest)  
Pray you keep it silent when I'm out here grinding, uh  
Thinking 'bout you late night in the studio  
Even when there's groupie hoes  
Wish that I could bring you close  
'Cause I look at you and shout to say "You always help me"  
Don't listen to your friends, I swear they always messy  
Tell your ass again, "I'm with you 'til the end  
Even if I'm in a bucket or I'm in a Benz" (In a Benz)  
I told you that forever is a long time  
But I wouldn't mind if you by my side, oh yeah

You say you was down for me, yeah yeah (Yeah)  
You should tell me what it's gone be, yeah yeah (What it's gon' be)  
If you really want it, then make it real (Make it real)  
You say you gon' love me, then say you will (Say you will)

You say you gon' love me baby, say you will (Woo)  
You say you gon' trust me baby, say you will (Say you will)  
You say you gon' fuck me baby, say you will (Woo)

Baby say you will, baby say you will (Say you will)
