

# Shine

P-Lo

Everybody wants to shine  
Who come out on a cloudy day  
Ayy, errything, errything  
(P-P-P-LO, time to bring the bass back)  
Ooh, errything that glitter  
Ayy, ayy, ayy

Errything that glitter ain't gold (Gold)  
Know the difference  
Lot a hoes like it's Christmas  
Say that money talkin', you whisperin'  
Ayy, she look better with a filter  
On me but I still curve  
Shinin' make 'em feel worse  
On one like the pill work  
A new boy like I still jerk  
(Ayy) Uh, gotta let it breathe  
My dawgs still doin' felonies

I got a watch and it still no time (No time)  
Bad lil' thing let me hit both sides (Both sides)  
On my mama, real boy, no lie (no)  
Even though they shade, know I'm still gon' shine  
Know I'm still gon' shine (Shine)  
Still gon' shine, still gon' shine, still gon' shine  
Still gon' shine, still gon' shine (Shine)  
Still gon' shine (What you do?), still gon' shine

Errything that glitter ain't gold (Gold)  
Know the difference  
My girl bad, she a misfit  
Your bitch love how the wrist wet  
Ayy, I still look like it's Pittsburg  
Get bands and repeat it  
She say I'm conceited  
I hit, then delete it  
She say I'm the meanest  
Ayy, worldwide, I ain't local  
Ayy, Spanish girls say I'm loco  
Ayy, from my head down to my shoes  
Ayy, got a bitch, she 22  
Ayy, I don't got no baby mother  
Ayy, split racks up with my brothers  
Ayy, I'ma spent it 'til it's gone ('Til it's gone)  
Ayy, don't know when I'm comin' home  
Yeah, yeah, I'm on it, know they pissed  
My life is the shit

I got a watch and it still no time (No time)  
Bad lil' thing let me hit both sides (Both sides)  
On my mama, real boy, no lie (no)  
Even though they shade, know I'm still gon' shine  
Know I'm still gon' shine (Shine)  
Still gon' shine, still gon' shine, still gon' shine  
Still gon' shine, still gon' shine (Shine)  
Still gon' shine (What you do?), still gon' shine

Everybody wants to shine  
Who come out on a cloudy day  
Remember, everything on the outside started within  
Come on, you know what I want
