

# What It Takes

P-Lo

Ayy, yeah, uh  
Ayy, yeah, yeah, yeah, yeah, ayy  
Yeah

Now I got you in my space  
Nothin' left to say  
Ain't no time to waste  
I know what it takes, I know what it takes  
Now we face-to-face  
You pick up the pace  
Ain't no need to chase  
I know what it takes, I know what it takes, yeah

Kisses on your neck, I can make it wet  
Don't care 'bout your ex, he is not a player  
Layin' in your bed, now you got on less  
Know what happened next? You say I'm a mess  
Know you caught the vibe, I'ma dim the lights  
Told me it feel nice, do just what you like  
Knew you was my kind, now we intertwined  
Know it's been some time, ain't had a real one in your life

I want just you, I mean it  
I know just how to treat it  
You got that shit, I need it  
I need it

Now I got you in my space  
Nothin' left to say  
Ain't no time to waste  
I know what it takes, I know what it takes  
Now we face-to-face  
You pick up the pace  
Ain't no need to chase  
I know what it takes, I know what it takes

Got me sayin' la, la, la, la-la, ayy  
You got me sayin' la, la, la, la-la, ayy

I won't make it home, puttin' down my phone  
Got me in the zone, wash you like a stone  
Got you all alone doin' things I don't  
If lovin' you is wrong, I wanna be wrong  
Drippin' like a leak, ride it like a Jeep  
Got you feelin' weak you can't even speak  
Make you reach the peak when I'm in it deep  
When I'm in it deep, when I'm in it deep

I want just you, I mean it  
I know just how to treat it  
You got that shit, I need it  
I need it

Now I got you in my space  
Nothin' left to say  
Ain't no time to waste  
I know what it takes, I know what it takes

Now we face-to-face  
You pick up the pace  
Ain't no need to chase  
I know what it takes, I know what it takes

Got me sayin' la, la, la, la-la, ayy  
You got me sayin' la, la, la, la-la, ayy
