

## Get Down

P.o.d.

And the whole world's watching  
What you gonna do now  
Everybody's listening  
What you gonna say now

Down! get down! nobody move, nobody make a sound  
If you want it then come and g-g-get it now  
This is your warning! I told you, you better back down  
Down! get down! nobody move, nobody make a sound  
If you want it then come and g-g-get it now  
This is your warning! I told you, you better back down

And the whole world's laughing  
How does that make you feel now?  
Everyone's judging  
Who you supposed to be now?  
And the cage keeps closing in  
All this rage I've held within

Down! get down! nobody move, nobody make a sound  
If you want it then come and g-g-get it now  
This is your warning! I told you, you better back down  
Down! get down! nobody move, nobody make a sound  
If you want it then come and g-g-get it now  
This is your warning! I told you, you better back down

Down! get down! nobody move, nobody make a sound  
If you want it then come and g-g-get it now  
This is your warning! I told you, you better back down  
Down! get down! nobody move, nobody make a sound  
If you want it then come and g-g-get it now  
This is your warning! I told you, you better back down
