Will You

P.o.d.

```
Dmi                          C
See you sittin' next to the window in the bedroom
    Ami            G
She brakes down - brakes down
Dmi                        C
Crying over something and starin' into nothin'
   Ami        G
Afraid now - hate now
Dmi      C        Ami             G
Wanting, needing, haunting, it's killing me
Dmi                          C
Faking what has happened to live the life like that man
Ami               G
I'll brake down - It's fake now

Dmi                 C         Ami     G
Will you, Will you love me tomorrow?
   Dmi                 C              Ami  G
So Will You, Will you stay with me today?

Dmi                           C
Fade in and out of reason to fight the way she's feelin'
    Ami           G
She brakes down - brakes down
Dmi                             C
Going through the motions and holding onto hopes
        Ami          G
and her dreams now - somehow
Dmi     C         Ami            G
Shaken, mistaken, forsaken, it's killing me.
Dmi                                  C
Wishing you could change, but he's always been this way
       Ami         G
If you leave now - I'll drown

Dmi                 C         Ami     G
Will you, Will you love me tomorrow?
   Dmi                 C              Ami  G
So Will You, Will you stay with me today?
Dmi                 C         Ami    G
Will you, Will you be here tomorrow?
   Dmi              C      Ami       G
So Will You, you remember yesterday?

Dis
Yesterday! Yesterday!
Yesterday! Yesterday!

Dmi  G

Dmi      C     Ami  G
This time, I'm sorry
Dmi      C     Ami   G
This time, I'm sorry
Dmi        C              Ami       G
This time, this time, I'm sorry for this time
Dmi        C              Ami
```

This time, this time, I'm sorry
G
This time I'm sorry!

Will you, Will you love me tomorrow?
So Will You, Will you stay with me today?
Will you, Will you be here tomorrow?
So Will You, you remember yesterday?

Will you? (6x)
So Will You?
