More rest and sex is all a n*gga needs
In a lifetime of stress tryna put my mind at ease
I'm not lookin' at the phone, too much shit been goin' on
But while we got this moment of peace alone, girl
We should just get
(Drunk and f*ck, drunk and f*ck, drunk and f*ck)
Girl, we should just get
(Drunk and f*ck, drunk and f*ck, drunk and f*ck, drunk)

Life is great when you're naked, you press the gas and I break it
I drink liquor don't chase it and I get women don't chase 'em
I'll put her face on the pillow and watch her bite on the blanket
See you tempted to taste it, get every drop and don't waste it
I'm f*cking with you, I'm f*cking with you
The type of dick to make that white girl say ''I love that n*gga''
I'll hit your Instagram and click like on like every picture
You get it from your momma, well then bring ya momma with ya
And lots of liquor, tell her "f*ck me like you hate me"
"You love me?" I said maybe
She said "boy don't keep me waiting"
And I say "go down, don't be lazy"
Yeah, now that's my baby, that's my baby
She love me for my drive, I love her cause she drive me crazy
What's up?

More rest and sex is all a n*gga needs
In a lifetime of stress tryna put my mind at ease
I'm not lookin' at the phone, too much shit been goin' on
But while we got this moment of peace alone, girl
We should just get

OVO I ride, OMO I ride
Reps Up, them my n*ggas from the Scarborough side
Don't fuck with them, our hollow tips will fly
I don't have to lie
Lot of people say it in a song just to say it, man, I'm not that type of guy
Hit me on the cell
I just might bring you to the city, send you home with stories you can never tell
I'm tryna break you out of your shell (And what?)
You just turned 21 like Adele, that's good with me
I put my business on hold, let me turn off the phone
Let's explore the unknown
If you not drinking with me you force me to turn up alone
No peer pressure, I just know you like to get in your zone
You say that you'd rather smoke
Well, let me call up OB's room and tell 'em roll up a cone
I know he probably got that extra special
I never second guess it
How's Villanova? What classes you taking next semester?
Man, she like "f*ck the small talk"
I'm not here to discuss extra credits or my professors
No time for funny stories
It's funny how she shows up late, but always comes before me

We both young and misguided, but that’s another story, yeah

More rest and sex is all a n*gga needs
In a lifetime of stress tryna put my mind at ease
I’m not lookin’ at the phone, too much shit been goin’ on
But while we got this moment of peace alone, girl
We should just get
