

# Outbreak

P. Reign

Uh, money falling it's clouding my vision  
Had to score with no assists couldn't wait for assistance  
I got me a mother 3 brothers and sister  
Been busy catching up to what's lost in the distance  
New boss of this business  
I could never play the game and then pause for these bitches  
I'm coppering these benzes, but it's costing me friendships  
Was relentless played the block  
And had perfect attendance pay attention  
Blow the whistle, I'm to official  
For some fraud to read my future thru a ball of crystal  
I hold the nickel case a bwoy try treat me like I'm likkle  
Imma let it sizzle when it touch him ain't no tickle  
All this ice on got me frozen like I'm cripple  
Last year I gave a dozen chains to my dogs that water ripples  
And all the effects was all my niggas to flex  
Just tryna ease a lil stress that's what you do when you blessed

I can never change all the times filled with pain  
I done went insane  
It was to insane  
I can never change I'm a product of the game I was raised in  
It's a miracle that we done made it  
It's a miracle we done made it

I put so much friends in coffins  
Ain't even mad I'm exhausted  
I feel the pain exhausted  
Can't heal the pain exhausted  
Can't run away  
And I'm loving on you

Lost in my conscience so many groupies  
They addicted to dollar signs  
But still they fuck me for free  
Haters looking with goggle eyes  
I'll give em something to see  
Theirs no need to apologize stuck to my roots like a tree  
It's a miracle I'm alive god put me back on my feet  
If you hand with them other guys no you can't hang around me  
Loyalty, no dollar buys that shit just comes if you g  
Put my name on a dotted line and start my own company  
I'm in my old ways, man I miss the old days  
We was eating ramen noodles  
Wash it down with OJS  
Only make me feel worse when you asking if I'm okay  
I was broke with supra on my feet I didn't have no j's, ya  
And where I'm from we all criminals  
Losing your brothers typical  
Everyone acts like followers  
No one's acting original  
Families broke and they miserable  
Spitting rhymes like it's biblical  
Hide my pain but it's visible  
Loyalty is the principle

I can never change all the times filled with pain

I done went insane  
It was to insane  
I can never change I'm a product of the game I was raised in  
It's a miracle that we done made it  
It's a miracle we done made it

I put so much friends in coffins  
Ain't even mad I'm exhausted  
I feel the pain exhausted  
Can't heal the pain exhausted  
Can't run away  
And I'm loving on you
