

Lennon (Freestyle)

Pa Salieu

They say they love me but want do me like Lennon
'Member john got baptised pon a Volkswagen
Defend myself in ways that I can never mention
Brodi saved his skin and now he's in detention
He was 21 now 26 still patience
Screaming free my codie till the day they free him
Submarine lock deep ina di belly
I got one thought deep ina dis heady

How I long for yesterday like Paul McCartney
Like I'm Ringo Starr
I beat it wit a sticky
Let it be any kinda rain
We won't be drownin
Still ridin' any kinda speed
Will not catch up to king
I gave peace a chance
They always try divide us
Here comes the sun
We lost a few at sun down
I miss yesterday
That's why we came together
Held each other
Eat from one plate
We all defeat the hunger

Any shmoke still wit it bitch I ride out
They Got ma killy locked up till he gone
We call this lifer
The ends fulla witches, cobras
They want my life out
Want my light out
But can't hack it if I blacked out
When I had nuttin I threw myself deep in the ocean
When my nanny died mommy depressed
I felt so hopelesss
I disappeared
OT cakin' it lookin like homeless
Struggles what they gave her
I knew one day she be shining

Pain, I've seen pain every year I feel so painless
I ain't felt pain when they caught me with a... less
I ain't felt pain when they shot me wit a care less
I find hard to weep because my mind cannot believe yet

I miss my bro ap what they saying I can't believe it
When dem pussy killed Emmanuel I felt like there is curse on me
When I'm reminiscing I really find it hard to see straight
My hearts been pure my killy I don't need no clean slate
(I don't need no clean slate)

When I felt broken I ain't broke
When evil try head lock me I ain't choke
When I hit the jungle I said I'm no criminal
Fuck the law they could never make me feel I am

(When I hit the jungle I said I'm no criminal)
(Fuck the law they could never make me feel I am)
